PROFESSIONAL SUMMARY

Data Center Operations & Supply Chain Program Manager with an MBA and B.S. in Industrial Engineering, bringing 8+ years of experience delivering mission-critical hardware programs. Proven track record maintaining 100% on-time delivery for custom cooling systems supporting global hyperscale cloud providers. Skilled in cross-functional leadership, multi-million-dollar procurement strategy, NPI-to-volume ramp, and data-driven risk mitigation. Adept at driving operational resilience, optimizing total cost of ownership (TCO), and establishing robust manufacturing and supplier workflows across international networks.

PMP | Lean Six Sigma Green Belt | Georgia Tech MBA

EDUCATION

GEORGIA INSTITUTE OF TECHNOLOGY, Scheller College of Business

Atlanta, GA

Master of Business Administration (MBA)

May 2025

- Concentration(s): Operations Management and Supply Chain

POLYTECHNIC UNIVERSITY OF PUERTO RICO

San Juan, PR

Bachelor of Science, Industrial Engineering

Sept 2017

- Concentration(s): General Industrial Engineering

EXPERIENCE

CARRIER CORPORATION

Atlanta, GA.

Operations Program Manager- Data Center Operations

May 2026-Present

- Maintained 100% OTD performance for critical custom chiller deliveries supporting a leading global hyperscale cloud infrastructure provider.
- Led cross-functional execution of multi-million-dollar data center projects from order release through customer delivery.
- Directed manufacturing operations, supply chain coordination, and program management activities to ensure delivery, quality, and cost objectives were achieved.
- Implemented operational improvements that enhanced visibility, accelerated issue resolution, and improved customer satisfaction.
- Developed and executed risk mitigation strategies to protect production schedules and maintain business continuity.
- Built strong partnerships with engineering, sourcing, logistics, sales, and customer-facing teams to drive operational excellence and deliver customer commitments.

Schedule B Project Manager- EM Category Management Team

Aug 2023-May 2026

- Achieved \$3.4 million in cost savings by strategically transitioning parts to new suppliers, optimizing procurement processes, and enhancing supply chain efficiency.
- Generated \$113K in cost savings by consolidating SKUs, reducing procurement complexity, optimizing inventory management, and lowering overall operational costs.
- Led cross-functional teams, including engineering, planning, buyers, and external suppliers, to successfully drive supplier transfer projects, ensuring seamless transitions, cost savings, and operational continuity.
- Delivered weekly project status reports to leadership, providing key insights, progress updates, and data-driven recommendations to support strategic decision-making and ensure project alignment with business objectives.
- Developed and standardized processes within the electromechanical team, improving efficiency, consistency, and cross-functional collaboration while streamlining workflows for enhanced operational performance.
- Mentored and developed multiple interns, providing hands-on training, guidance, and professional development, leading to improved team productivity and successful transitions into full-time roles.
- Established and strengthened relationships with key suppliers, fostering collaboration, improving communication, and enhancing supplier performance to drive successful project execution and long-term strategic partnerships.
- Designed and implemented tracking sheets for all high-value projects, enhancing visibility, streamlining project monitoring, and enabling data-driven decision-making to ensure timely execution and alignment with business objectives.

NCR CORPORATION**Atlanta, GA****Global Operations Program Manager***Mar 2019-Aug 2023*

- Successfully launched an average of 3 new product introduction (NPI) programs per year, meeting all timeline, quality, and budget targets.
- Oversaw cross functional operations NPI/Lifecycle for assigned programs (managed over 60 products)
- Managed excess product inventory and drove over 700 reconfigurations to reduce excess inventory by \$1.1 million on a yearly average. (\$3.3m in total)
- Developed and led program management team through the creation of multiple PM processes, which resulted in formal 30/60/90 onboarding training documentations for new hires and a proven reduction in learning curve
- Analyzed and reduced product portfolio by discontinuing and obsoleting non-value-added products, leading to a 30% savings in operational costs
- Introduced formal discontinuation process for EOL products, including documentation checklists, meeting schedule formats and role identifications. This process reduced EOL excess inventory by more than 60%
- Managed Engineering Change Control (ECC) impacts to operations schedules

NCR CORPORATION**Columbus, GA/ Mt Juliet, TN/ Guadalajara, México****Manufacturing Engineer***Sept 2017- March 2019*

- Implemented one piece flow to mfg. line, reducing scrap by 40% and increasing capacity by 16% (extra output of 22 units daily)
- Developed new build processes and maintained manufacturing documentations for production areas
- Implemented new facilities layout Supermarket for production floor material replenishment
- Maintained Standard Operating Procedures (SOPs) up to date
- Designed multiple 80/20 fixtures and carts for better material handling and human ergonomics
- Played a key role in the successful launch of a new NCR supplier plant in Mexico by reviewing, correcting, and supervising NPI setups for a period of 8 months
- Travelled to customer sites for critical unit failure root cause analysis and resolved failures on the field

Skills

Core: Operations Program Management, Supply Chain Strategy, NPI Readiness, Category Management, ECC, SIOP, Continuous Improvement, Risk Management, Data-Driven Execution, Product Transfer Management

Certifications: PMP (Cert Number: 3356901), Lean Six Sigma Green Belt, Lean Manufacturing Green Belt

Technical: Tableau, SQL, ERP, AutoCAD, Minitab, Kinaxis Demand Software, Power BI, Data Visualization

Methods: Lean Six Sigma Projects (DMAIC Method), Agile & Traditional PM

Languages: Spanish – native

Interests: Brazilian JiuJitsu Black Belt, Travelling & Cooking
